First Owner
When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Ownership History
CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued
A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

The National Highway Traffic Safety Administration (NHTSA) provides 3 different ratings - **full-width frontal crash test** , **side impact crash test** , and **rollover resistance** . The frontal crash test indicates how well the safety features and restraints will protect an occupant in a head-on collision. The side-impact test conveys the chance of a severe chest injury, while the rollover resistance rating estimates the risk of rolling over in a single vehicle crash. Go to [NHTSA](#) to learn more about these results.

Safety Recalls

NHTSA Safety Recalls:

Important: The following recalls were issued for the 2005 HONDA CIVIC SI by the National Highway Traffic and Safety Administration (NHTSA). To find out if a specific 2005 HONDA CIVIC SI still has open recalls that require repair, CARFAX recommends contacting an **authorized dealership** for more information.

Recall date:	11-24-2004
Units potentially affected:	416
NHTSA campaign number:	04V550000
Defective part or component:	SEAT BELTS:FRONT:ANCHORAGE
Description:	On certain passenger vehicles, some front seat belt anchors may have been installed with an incorrect washer, which could restrict anchor movement. As a result, the seat belt may be improperly positioned for certain occupants. An improperly positioned belt could increase the risk of injury in the event of a crash. Dealers will inspect the front seat belt anchors for restricted movement. If an anchor does not rotate freely, the dealer will replace the washer with a countermeasure washer. The recall began on November 24, 2004. Owners should contact Honda at 1-800-999-1009.

This 2005 HONDA CIVIC SI safety recall information was provided by the Insurance Institute for Highway Safety, Highway Data Loss Institute and is derived from the [National Highway Traffic and Safety Administration](#) list of safety recalls. Please call the National Highway Traffic and Safety Administration Auto Safety Hotline at 1-888-DASH-2-DOT (1-888-327-4236) to report safety defects or to obtain information on cars, trucks, child seats, and highway or traffic safety. New Car Test Drive Review

NewCarTestDrive.com

Category:

Summary:

Review:

Big satisfaction in a small package.

By Mitch McCullough, NewCarTestDrive.com

Now in the latter part of its product cycle, the Honda Civic remains a class standard. You can't go wrong with a Civic regardless of trim level, and there are a broad range of choices to suit budgets, needs or tastes. All are practical, fuel efficient and fun to drive. Other small cars might beat the Civic in a particular area or category of performance, but few match its overall balance of strengths.

New Car Test Drive editor Mitch McCullough is based in Southern California.

Overview:

Efficient, practical, affordable, polished and pleasant to drive, if not downright fun, with a reputation for reliability: These are the Honda Civic's hallmarks, and nothing about the 2005 model suggests anything has changed.

Measured by the hardware, little has changed on the Civic for 2005. There are a couple of new paint colors and a Special Edition package at the high end of the line-up. On the other hand, price increases are so modest that they haven't kept pace with inflation, and the Civic had significant changes inside and out for 2004.

Few carmakers offer the range or diversity Honda builds into the Civic line. There are sedans, coupes and a hatchback, with an emphasis on either features and convenience, performance or fuel efficiency and low cost of operation. All are notable for their excellent fuel economy, free-revving engines and solid handling, including the electrically assisted Hybrid. Up-level Civics come with powerful VTEC engines that deliver brisk acceleration. The Si hatchback is the flagship performance model, and a favorite among young enthusiast drivers for good reason. All provide superb comfort for front-seat passengers.

Three specialized Civics are designed specifically to minimize environmental impact and deliver better fuel economy than all but a few cars currently available. The most extreme is the Hybrid sedan, which gets up to 51 mpg with help from an electric motor that never needs to be plugged in. Owning and driving a Civic Hybrid is just like life with a regular Civic, almost. The Civic HX coupe gets 44 mpg on regular unleaded. There's also a Civic GX sedan that burns natural gas; Honda claims it has the cleanest internal combustion engine in the world.

Subtle styling changes were made for 2004 when bumpers, hoods, headlights and grilles on the coupe and sedan were redesigned to emphasize a baby-brother resemblance to the slick, smooth Honda Accord. The sporty Si hatchback was trimmed with new head- and tail lamps. All Civics were improved with less visible updates that reduced noise and vibration inside.

Nearly four decades after its introduction, the Honda Civic can rightfully be called an automotive icon. It remains one of America's best-selling small cars for good reason.
